EDUCATION

Chandigarh University

Computer Science Bachelors of Engineering

CGPA: 7.26

Garuan, Mohali, Punjab

2021 - 2025

SKILLS

Programming Languages: C++, java
Libraries/Frameworks: Javascript, ReactJs, Html, CSS, Bootstrap
Tools / Platforms: VsCode, Eclipse, Colab, Android Studio
Databases: SQL

PROJECTS / OPEN-SOURCE

Apexwolf :A crypto Exchange website

React JS ,Bootstrap

ApexWolf, the Ethereum-exclusive crypto exchange platform. This repository houses the code for our website, providing a seamless experience for users looking to trade Ethereum and ERC-20 tokens.

Explore the world of decentralized finance with SEPOLIA.

Sentiment Analysis

NLP, ML

Created a sentiment analysis tool to assess the sentiment of Amazon product reviews and user input text. Implemented NLP techniques to classify text into positive, negative, or neutral categories, providing actionable insights for product enhancement and customer feedback evaluation.

PortFolio Website

Html, CSS

Created and maintain a professional portfolio website to highlight my technical skills and project achievements

Dictionary Application

Android Studio, Java, XML

Developed a comprehensive mobile dictionary application for Android using Java and XML. The app features an intuitive user interface and provides detailed word definitions, synonyms, antonyms, and example sentences. Implemented efficient search functionality and offline access, allowing users to find word meanings quickly and conveniently without needing an internet connection.

CERTIFICATIONS

- In House Summer Training -NLP Using Machine Learning - Chandigarh University.
- Introduction to Frontend Development - **Coursera-Meta**
- Introduction to Internet Of things - NPTEL.
- C++ Essential Training - Coursera.
- Microsoft Azure Fundamentals - Microsoft Azure.
